

Cleans by Air Alone Royal Electric Cleaner

The Royal Motor is designed to develop high speed and power with lowest current consumption. Under working conditions the motor revolves at the speed of 9,500 revolutions per minute, producing through the scientifically designed fan an air current having a velocity of 120 miles per hour. It is thus easy to realize why the Royal, moving air at such a tremendous speed, cleans so thoroughly and quickly.

High motor speed is necessary to develop high air velocity. High air velocity is necessary to efficient cleaning. Only in the Royal are these two features developed to the utmost. The powerful Royal suction whisks every particle of dust and dirt out of your carpets, no matter how deeply it may be ground in, leaving the nap fresh and erect, and restoring the colorings to their original brightness.

The Royal raises no dust or germs to contaminate the air, and leaves none to be raised after the cleaning operation is completed.

With every Royal Cleaner we give a binding guarantee which absolutely protects the Royal owner against defects in material and workmanship. Thus we prove our faith in Royal Quality.

When you purchase a Royal you do not only have the satisfaction of knowing that you have the best cleaner that money can buy, but that you are absolutely protected in every way.

**WORK FOR UNEMPLOYED
DELAYED TILL THURSDAY**
The idea of Mayor T. E. Andrews' Administration.

The starting of the work on the Walnut street sanitary and storm sewers and the sewers on May, Senate and Meadow streets, which is to be done under the auspices of the department to furnish work for some of the unemployed in the city, was deferred until Thursday morning.

That the plan is meeting with favor is very evident from the number who have applied for work, and there is a possibility that more work will be done under the same method by this plan, which was suggested by Mayor T. E. Andrews and headed by the service department. It is hoped the work can be done at a much lower figure than by turning it over to contractors. The board of the Star agreed, Tuesday evening, by stating that the idea was that of Mayor Sautter's administration when it should have read Mayor Andrews' administration.

Now that it has been decided that beer is a medicine, the doctors might just as well get next to the fact that they are soon going to be due for a lot of hurry calls.

One way to keep out of war is not everlastingly talking and considering the possibility of engaging in it.

It's just a bit hard to understand how twilight for the British lion's tail and making faces at Nippon is going to help along the movement for disarmament. It may be the psychological time for one or the other, but hardly for both.

FOR A NEW MEAT SUPPLY.

Though most of us think of reindeer only as the means of bringing Santa Claus from his northern fastnesses each year, it is probable that those who come after us will look to the reindeer herds of the Northland for a proportion of their meat supply. The animals are most prolific. Twenty-eight years ago 1,250 head were imported into Alaska. The herd now number 200,000. At this rate of increase, the available supply should be sufficient for many generations.

But though the reindeer is a choice food, the government breeders are not satisfied with it. An expedition will be sent up to the Mount McKinley region, where wild caribou, of which the bulls dress up to 400 pounds, are running. Some of these fine fellows will be captured, crossed with the reindeer, and in a few years the porker and the bovine will have a rival for the place of honor at the great American table.

TOO MUCH PROPAGANDA.

Albert J. Beveridge sped a shaft right to the heart of the bulls-eye when he declared that "America is the most propaganda-ridden country in the world." The number of bureaus, commissions, press services, publishing companies, lecturers, societies, clubs and what-not devoted to propagandizing in this country is positively appalling. Appeals are made for everything from breechcloths for the King of the Heds to the restoration of the czarist regime in Russia. The press is swamped with press agent publicity, the federal treasury is besieged with requests for funds, the rostrum swarms with wild-eyed eloquentists plavering internationalism and demanding self-determination for the headhunters of Borneo, the bushmen of Australia, caste-incorherent India, the Hermit kingdom and the leap aces of Albania. Pulpits are turned to the preachers of discord and colleges turn out their chairs to the advocates of political dissolution.

In the domain of international politics are to be found such propaganda instrumentalities as the East and West News bureau, maintained by Japan, with offices in New York and San Francisco, and a guiding hand in Washington. There is the Polish commission, the Lithuanian commission, the Korean commission, the Albanian commission—in fact, any country which is having a devil of a time running its government, has a commission or two in the United States, which is made a debating ground for freak politics. And most of them are engaged in stretching out the wide and sticky palm for American money or American sympathy, and American intervention if the slightest charity or sympathy is betrayed.

After a nation has plunged its arms to the shoulders in the American strong-box, it proceeds to inaugurate a campaign of publicity to show why the money should not be paid back—and it finds willing listeners in those who have not bought bonds and do not pay taxes. If we pause to express sympathy for a tribe in trouble, we are importuned for cannon and munitions, even men, to relieve them. If we do not pause, we are barbarians and of the breed of Mammon. If Greece is about to lose a rocky promontory in Thracia, if a grave plot is clipped from the Golden Horn, if a bulge is reduced in Bulgaria, or a clough-off impends in Slovakia, there is a rush of propagandists to America and a peremptory demand for American interference. Our job is to put the arm in Armenia and spread the rhino along the Rhine, or the world will go to pot.

As for domestic propagandists, their name is legion, ranging from the Plumb planners to satyrical sex communists, offspring of Karl Marx and the worshippers seeking a spawning place in American idealism.

America went into the war a Sir Galahad and came out the avenger of a devil's breed of misshapen notions and theories. Their continued existence depends upon the caninities or credulity of the people. Possibly, under the new administration we may be permitted to tend to our own knitting without a daily reminder as to our duty to supervise the affairs of the Old world, and turn the American commonwealth into a political laboratory for explosive experimentation.

Of course, Will Hays will have more or less to say to do, but there's the compensation. He'll get a big salary for his trouble.

"The date Mr. Nathan O. will retire temporarily from the front page now," says the Columbus Dispatch. Maybe still, it's always possible a store a fake bandit raid.

But it's not that if Americans are only half what they are, they would feel better. Here's another of the remedies some people will be inclined to use when the disease.

"There are a good many men," says the Toledo Blade, "who never wear a dress suit at any time in their lives and thus act as if they were happy just the same." And then we have known men who frequently wear a dress suit who never wear it when it's time to go to work.

LIFE'S VAUDEVILLE.

(By James Hall Taylor)

THESE DAYS OF RECONSTRUCTION.

These days of reconstruction are bringing the world many big and perplexing problems—bringing them to the United States, as well as to all other civilized peoples and nations.

It's a time for us to keep cool and sane. We should deal with facts as they present themselves—not with glittering generalities, not with vague theories, not with effervescent ideas and evanescent ideals.

The world must pay its debts—yes; and America must pay her debts. The world must be reconstructed—true; but America must be reconstructed. We must give the wide world consideration; but we must give our own country consideration first. We must exercise charity toward all; but our charities must begin at home.

In a recent issue of the Ohio State Journal, I find an editorial to which I desire to direct attention. I shall quote and comment:

"Mr. Longworth's tax revision bill, which some say represents the probable Republican program in the next congress, involves the effort to more than double the government's tariff revenue. It raises the duties all along the line, is, in fact, about the sort of tariff measure which might have been expected from the high tariff party if there had been no war and if commercial and industrial conditions in the civilized world had not undergone revolutionary changes since 1914."

Then this editor is against the Republican protective policy—at the present time, at least. Why? Because there has been a marked change in industrial and commercial conditions in the last few years. But if this change has wrought havoc to the rest of the world, hasn't it seriously damaged the United States? Haven't our industries and our commerce suffered? Look around—observe—compare.

However, let's proceed. "The hope of the trading world now is that France, England, Belgium, Russia and Germany will recover quickly from the blows their industry and commerce have suffered."

How much have the industries and commerce of these countries suffered—the industries and commerce of England and Germany, in particular? We don't know definitely; we simply have their statements. And haven't the industries and commerce of the United States suffered?

"America has most of the power to buy."

Maybe. But Central America, Mexico, South America, South Africa, Canada, Australia, India, Egypt, China and Japan still have "power to buy," haven't they?

"To shut the struggling nations of Europe out of our markets, as high tariffs would have a tendency to do, would delay for a long time their getting to their feet again, would prolong their industrial agony and play directly into the hands of the forces of unrest and revolution."

Humph! Well, to admit these nations to an unrestricted American market would do the very same things for America—would it not? If not—why not? To glut our markets with European goods would delay for a long time the normalcy to which we aspire; would prolong our industrial and commercial agony—and play directly into the hands of our own forces of unrest and revolution. Shall we ruin ourselves—in an effort to benefit Europe? Don't we owe anything to the American worker and business man—or do we owe all to the European worker and business man?

Let's keep sane and cool and let's remain Americans.

DEGREES CONFERREDBy Montgomery Grange at a
Meeting Last Night.

The first and second degrees were conferred on a class of candidates at a special meeting of the Montgomery Grange held Tuesday evening in the school-house at Decatur. Following the work a literary program was enjoyed, opening with an organ number by Miss Virginia Hense. Miss Helen Tron and Mrs. Edith Thibault sang a pleasing vocal number, after which Jay Greer and George Parker contributed readings.

George Parker was sent as a delegate from the Marion county granges to the union state meeting of the Farm Bureau, Farm Federation and Grange, held today in Columbus. Arrangements were also made to have Harry C. Caton, lecturer of the state grange, deliver a talk Wednesday evening, March 15, at the Methodist church at Decatur. A special meeting of the grange will be held March 22 when the third and fourth degrees will be conferred on a class of candidates.

OPTOMETRISTWHAT IS MEANT BY
EYE COMFORT?

First, it means the ability to read and write and sew, and do other near work for reasonable lengths of time without any undue strain upon the eyes. Freedom from eye strain means also freedom from headaches and other ills that come as a result of it. So that eye comfort means much more to the patient than freedom from pains in the eyes. If you need eye attention our services would be of value to you.

STOLEN RICHWOOD AUTO TIRES ARE RECOVERED

Through Arrest of Three Men at Kenton.

Through the arrest of three men, two Miller brothers and a man named Stewart, at Kenton, twenty-eight of the thirty-five tires stolen last Tuesday from the Kagan Brothers' garage have been recovered. The arrest was made by the Kenton chief of police, who, in going to the country to investigate a tip that a still was being operated, came upon a broken-down machine loaded with tires.

The tires were identified through the numbers on them, a duplicate of which was filed in the local garage office.

The chief of police found the still, which he was looking for, and which was being operated by a farmer. Incidentally the farmer and his son were charged with receiving stolen property, they having permitted some of the stolen tires to be kept in their barn.

The two Millers and Stewart have been bound over to the Hardin county grand jury. They are also charged with the theft of a quantity of series. —Richwood Gazette.

HEAD OF RICHWOOD SCHOOLS DISAPPEARS

After Suffering Nervous Breakdown—At Xenia.

Because of the nervous breakdown of Superintendent F. H. Young, the Richwood schools are without a head. Last Wednesday, during a temporary shut down of the high school to make repairs in the heating apparatus, Superintendent Young left Richwood, going to Columbus. He then went to Dayton, Xenia and Yellow Springs. A telephone message from Probate Judge Marshall of Xenia, to the family here told of finding Superintendent Young in a Xenia hotel. Judge Marshall is a college classmate of Superintendent Young.

The disorder has not caused the sufferer to become violent and it is hoped that his condition will soon improve through proper treatment. A particularly sad feature of the case is the serious illness of Mrs. Young, who for several weeks has been unable to fill her place as a teacher in the local schools. Superintendent Young will be placed in a Columbus private sanitarium. —Richwood Gazette.

UNITED EFFORT TO HAVE RICHWOOD ROAD REBUILT

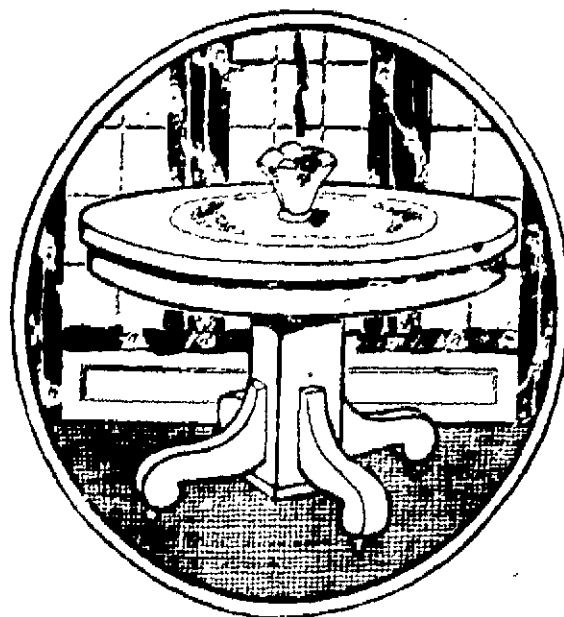

Richwood and Marysville Clubs Hold a Meeting.

Representatives of Richwood commercial club and Marysville chamber of commerce met Monday at Marysville with the county commissioners and engineer, Dr. Southard, of Marysville, member of the Good Roads federation, was also present at the conference. The meeting was called in an effort to have the state highway department rebuild that portion of the state road between Richwood and Marysville which is still unimproved.

The county commissioners have already decided to build a portion of this road, but finances of the county will not permit the entire improvement to be made. The road is the only direct route between Richwood and the county seat and part of it is now almost impassable.

Richwood men who attended Monday's conference were Owen Livingston, George Hunt, J. S. Kagan, J. F. Wood, A. H. Kilgustine, Arthur Marriott and Fred McAllister. Mr. Hunt is the local representative of the Good Roads federation.

On Tuesday the county commissioners, county engineer, Dr. Southard, of Marysville, and A. H. Kilgustine, of Richwood, met with the head of the state highway department. Mr. Hunt found it impossible to attend, and in his stead Mr. Kilgustine went as local representative of the Good Roads federation. —Richwood Gazette.

Just picture such a high grade table as this one for the low price we quote. Seems impossible, doesn't it? Just a very fortunate purchase on our part permits it. Made throughout of solid oak with a beautiful golden finish. Designed in a massive Mission period, and strongly made to withstand even unusual wear. Top may be extended by the adding of leaves. This table should be in your dining room—at the price we quote there is no reason why you cannot put it there. See it and be convinced.

At Home in Any Home.

The famous Churngold taste appeals to everyone who likes good butter.

That marvelously CREAMY flavor makes it acceptable in the finest homes, where the low cost is incidental.

In more modest homes, too, Churngold, purchased first for its economy, earns a regular place at the table through its quality and flavor.

This quality and flavor is the natural result of careful churning of highest grade, pure food products, principally milk, in a modern, sanitary churnery, under U. S. Government inspection.

The quality is high enough for any home.

DISTRICT SCHOOL HEADS HIT BY BILL

Ohio House Favors Farmers' Plan for Marketing.

Columbus, March 9.—With only one dissenting vote the house passed the Brand senate bill exempting farmers' marketing associations or companies from the restrictions of the Valentine antitrust law. It now goes to the governor for signature. Such organizations, however, are placed under the control of the public utilities commission. If they make more than a reasonable profit, restrict competition or restrain trade unduly, the commission may issue regulatory orders.

If the senate approves the Brand bill, passed by the lower house, 216 district school superintendents will be out of jobs. The bill provides, however, that each county may create not to exceed three assistant county superintendents if the presidents of a majority of village and township boards of education so petition. The county board then is to divide the county into as many districts as are petitioned for. The county superintendent shall recommend to the presidents of the board of a district an assistant.

The house passed a bill to safeguard the lives of hops in shipment to market, and immediately afterwards killed a measure designed to protect the health of school children. Arguing for the latter, the Warner physical education bill, Fouts of Morgan said it would be inconsistent to care more about the lives of hops than the health of children. The Warner bill was up for reconsideration, having been defeated Feb. 24. The bill would have required 30 minutes a day of physical education or supervised play during recess.

BIG ALL COMEDY HIT

The Best Acting Tom Moore Ever Did —
And the Best Tom Moore Picture Ever Made

TOM MOORE
IN
"Hold Your Horses"
Adapted from the Famous Saturday Evening Post Story
"CANAVAN" by RUPERT HUGHES
HE STARTED AS A STREET-CLEANER—he ended as the political boss of New York and the husband of the haughtiest beauty in Society. He used to be as meek as a new-born lamb, and the most hen-pecked man in the Ninth Ward—but he ended up as the toughest scrapper that ever cleaned up a bar-room or pulled a cop's nose. A jewel of a picture, sparkling with Irish humor and displaying Tom Moore as the most amazing Misher Canavan.
